

CB Series - 1,000 to 24,000 BTU

Compressor-Based Air Conditioners

- 1,000 to 24,000 BTU/HR Cooling Capability
- Indoor (NEMA 12) or Outdoor (NEMA 4/4X) Applications
- Vertical or Horizontal (top) Mounting
- 120 VAC (220 VAC Available)

Description

EIC's Compressor-based Air Conditioners are designed for applications requiring traditional air conditioners and/or higher levels of cooling output. These industrial air conditioners are available from 1,000 BTU to 24,000 BTU in a wide range of configurations for both indoor and outdoor use. Units can be furnished for both vertical or horizontal mounting with a variety of options available. Combination packages (Air Conditioned Enclosures) are our specialty.

Features

- Efficient, compressor-based design (non-CFC refrigerant)
- "Closed loop" cooling feature
- Space-saving cabinet design
- NEMA 12, 4 and 4X designs for indoor or outdoor use
- Suitable for vertical or horizontal (top) mounting
- Flush-mounted design
- Mounting gasket
- Adjustable thermostat
- 120VAC or 220VAC power
- Powder coated steel or stainless steel construction
- Condensate management system
- Built-in digital temperature controller (most models)
- Easy pull-out filter, washable / replaceable (certain models)
- One year full warranty

Options

- CE certified units
- Hazardous location (Class 1, Div. 2) models
